

## JOTUN Industri LADY Pure Nature

### Product description

#### Type

Waterborne oil stain for interior use. Developed specifically for industrial application to the panel board.

#### Features and benefits

Gives a naturally beautiful finish that will enhance the woodwork. Contains light filter which effectively reduces yellowing.

#### Recommended use

For industrial application on interior pine panel.

### Installation of factory-treated wood panel

The panel is mounted in accordance with the current norms and standards for carpentry.

Proper cleaning with clean hands and clean tools to avoid putting finger, dirt and grease marks on the panel is recommended. If necessary, use a mild synthetic detergent to wash away dirt and grease marks from the assembly work. Avoid using green soap and ammonia.

The substrate must be clean, sound and dry before further treatment.

### Treatment after assembly of wooden panels that are applied JOTUN Industry Lady Pure Nature

When mounting	Cut surfaces and bare wood can be treated with <b>LADY Pure Nature</b> from your local paint dealer.
Cleaning:	Stained surfaces must not be cleaned the first four weeks. If cleaning is necessary, the pH of the detergent must not exceed pH 9.
Cleaning agent:	<b>JOTUN Spesialvask før maling</b> is recommended.
Maintenance:	The maintenance interval is affected by mechanical conditions, and retreatment must therefore be done when required. The panel can be stained with <b>LADY Pure Nature</b> or recoated with Jotun's interior paints adapted to wood.
Damages or repairs	Damages or repairs to be rectified with the same product as used when the work was done. If other products are used, documentation must be presented as proof, that they are the same type of product as first used. Repair of damages, shall be carried out, so that they do not deviate from current treatments.

### Application methods, recommended use and technical specifications

See Technical Data Sheet / packaging for the recommended products regarding directions for use, drying times, spreading rate and film thickness etc.
