

## Lady Design Stucco Antica

| Section 1. Identification |                             |  |
|---------------------------|-----------------------------|--|
| Product identifier        | : Lady Design Stucco Antica |  |
| Product code              | : 24060                     |  |
| Product type              | : Liquid.                   |  |
| Product description       | : Waterborne paint.         |  |

Other means of identification

: Waterborne paint.

: Not available.

#### Recommended use of the chemical and restrictions on use

Use in coatings - Consumer use: Apply this product only as specified on the label.

| Supplier's details  | : Jotun Paints Co LLC,<br>P.O.Box 672-C.P.O,<br>Postal Code - 111<br>Sultanate of Oman<br>Tel: 00968-626100<br>Fax:00968-626105<br>SDSJotun@jotun.com |

## Section 2. Hazard identification

| Classification of the substance or mixture | : | SKIN SENSITISATION - Category 1<br>SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 3<br>LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 3  |
|--|---|---|
| GHS label elements                         |   |   |
| Hazard pictograms                          | : |   |
| Signal word                                |   | Warning.  |
| Hazard statements                          |   | H317 - May cause an allergic skin reaction.<br>H412 - Harmful to aquatic life with long lasting effects.  |
| Precautionary statements                   |   |   |
| General                                    | : | P102 - Keep out of reach of children.   |
| Prevention                                 | : | P280 - Wear protective gloves.<br>P273 - Avoid release to the environment.<br>P261 - Avoid breathing vapour.  |
| Response                                   | : | P362 + P364 - Take off contaminated clothing and wash it before reuse.<br>P302 + P352 - IF ON SKIN: Wash with plenty of water.<br>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention. |
| Storage                                    | : | Not applicable.   |

## Section 2. Hazard identification

**Disposal** 

: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.

# Other hazards which do not : None known. result in classification

## Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture        |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

| Ingredient name                               | %      | CAS number |
|---|--------|------------|
| ammonia                                       | ≤0.3   | 1336-21-6  |
| Alcohols, C16-18 and C18-unsatd., ethoxylated | ≤0.3   | 68920-66-1 |
| C(M)IT/MIT (3:1)                              | ≤0.014 | 55965-84-9 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.   |
|--------------|--|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact | : Wash with plenty of soap and water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the<br>event of any complaints or symptoms, avoid further exposure. Wash clothing before<br>reuse. Clean shoes thoroughly before reuse.  |
| Ingestion    | : Wash out mouth with water. Remove dentures if any. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |

| Eye contact             |      |   |             |  |
|-------------------------|------|---|-------------|--|
| Lye contact             | 1    | No known significant effects or critica | al hazards. |  |
| Inhalation              | :    | No known significant effects or critica | al hazards. |  |
| Skin contact            | :    | May cause an allergic skin reaction.    |             |  |
| Ingestion               | :    | No known significant effects or critica | al hazards. |  |
| Over-exposure signs/sym | ptor | <u>ns</u>                               |             |  |

## Section 4. First aid measures

| Eye contact                                      | : | No specific data.   |
|--|---|---|
| Inhalation                                       | : | No specific data.   |
| Skin contact                                     | : | Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion  | : | No specific data.   |
| Indication of immediate me<br>Notes to physician |   | <u>I attention and special treatment needed, if necessary</u><br>Treat symptomatically. Contact poison treatment specialist immediately if large<br>quantities have been ingested or inhaled.   |
| Specific treatments                              | : | No specific treatment.  |
| Protection of first-aiders                       | : | No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

See toxicological information (Section 11)

## Section 5. Firefighting measures

| Extinguishing media                            |  |
|--|--|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.  |
| Unsuitable extinguishing media                 | : None known.  |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.<br>This material is harmful to aquatic life with long lasting effects. Fire water<br>contaminated with this material must be contained and prevented from being<br>discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.  |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>  |

## Section 6. Accidental release measures

| Personal precautions, protec   | tiv | e equipment and emergency pro   | ocedures   |  |                       |        |
|--------------------------------|-----|---|--|--|-----------------------|--------|
| For non-emergency<br>personnel | :   | No action shall be taken involving<br>Evacuate surrounding areas. Kee<br>entering. Do not touch or walk th<br>mist. Provide adequate ventilatio<br>inadequate. Put on appropriate p | ep unnecessary and unpro<br>rough spilt material. Avoi<br>n. Wear appropriate resp | otected perso<br>d breathing v<br>pirator when v | onnel fro<br>/apour c | or     |
| For emergency responders       | :   | If specialised clothing is required<br>information in Section 8 on suitab<br>information in "For non-emergence  | le and unsuitable materia  |  |                       |        |
| Environmental precautions      | :   | Avoid dispersal of spilt material and<br>and sewers. Inform the relevant a<br>pollution (sewers, waterways, soil<br>to the environment if released in I                             | authorities if the product h<br>or air).  Water polluting n                        | nas caused e                                     | nvironm               | nental |
| Date of issue/Date of revision |     | : 31.07.2023 Date of previous issue   | : 31.07.2023   | Version  | : 1.01                | 3/10   |

## Section 6. Accidental release measures

#### Methods and material for containment and cleaning up

| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
|-------------|---|
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach the release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilt product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

## Section 7. Handling and storage

| Precautions for safe handling                                      | L |  |
|--|---|--|
| Protective measures  | : | Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.           |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store in accordance with local regulations.<br><b>Notes on joint storage</b><br>Keep away from: oxidising agents, strong alkalis, strong acids.<br><b>Additional information on storage conditions</b><br>Observe label precautions. Store in a dry, cool and well-ventilated area. Keep away<br>from heat and direct sunlight.<br>Keep container tightly closed.<br>Keep away from sources of ignition. No smoking. Prevent unauthorised access.<br>Containers that have been opened must be carefully resealed and kept upright to<br>prevent leakage. |

See Technical Data Sheet / packaging for further information.

## Section 8. Exposure controls/personal protection

#### Control parameters

Occupational exposure limits

None.

#### **Biological exposure indices**

No exposure indices known.

| Appropriate engineering controls | : | Good general ventilation should be s contaminants.  | sufficient to control wor                          | rker exposure                   | e to airb | orne |
|----------------------------------|---|---|--|---------------------------------|-----------|------|
| Environmental exposure controls  | : | Emissions from ventilation or work p<br>they comply with the requirements o<br>cases, fume scrubbers, filters or eng<br>equipment will be necessary to redu | of environmental protec<br>gineering modifications | tion legislatic<br>to the proce | on. In so |      |
| Date of issue/Date of revision   |   | : 31.07.2023 Date of previous issue   | : 31.07.2023                                       | Version                         | : 1.01    | 4/10 |

## Section 8. Exposure controls/personal protection

#### Individual protection measures

| Hygiene measures       | : | Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.   |
|------------------------|---|---|
| Eye/face protection    | : | Safety eyewear complying to ISO 16321-1:2022 should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection        |   |   |
| Hand protection        | : | There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals.<br>The breakthrough time must be greater than the end use time of the product.<br>The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.<br>Gloves should be replaced regularly and if there is any sign of damage to the glove material.<br>Always ensure that gloves are free from defects and that they are stored and used correctly.<br>The performance or effectiveness of the glove may be reduced by physical/chemical damage and poor maintenance.<br>Barrier creams may help to protect the exposed areas of the skin but should not be applied once exposure has occurred.<br>For right choice of glove materials, with focus on chemical resistance and time of penetration, seek advice by the supplier of chemical resistant gloves.<br>The user must check that the final choice of type of glove selected for handling this product is the most appropriate and takes into account the particular conditions of use, as included in the user's risk assessment. |
| Body protection        | : | Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.   |
| Other skin protection  | : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection | : | If workers are exposed to concentrations above the exposure limit, they must use a respirator according to EN 140. Use respiratory mask with charcoal and dust filter when spraying this product, according to EN 14387(as filter combination A2-P2). In confined spaces, use compressed-air or fresh-air respiratory equipment. When use of roller or brush, consider use of charcoalfilter.   |

# Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

| <u>Appearance</u>            |   |
|------------------------------|---|
| Physical state               | : Liquid.   |
| Colour                       | : Various   |
| Odour                        | : Characteristic.   |
| Odour threshold              | : Not applicable.   |
| рН                           | : 8 to 10   |
| Melting point/freezing point | : 0   |
| Boiling point                | : Lowest known value: 100°C (212°F) (water). Weighted average: 103.78°C (218.8°F) |
|                              |   |

## Section 11. Toxicological information

#### Not available.

| General               | : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. |
|-----------------------|---|
| Carcinogenicity       | : No known significant effects or critical hazards.   |
| Mutagenicity          | : No known significant effects or critical hazards.   |
| Reproductive toxicity | : No known significant effects or critical hazards.   |
|                       |   |

#### Numerical measures of toxicity

#### Acute toxicity estimates

| Product/ingredient name | Oral (mg/<br>kg) | Dermal<br>(mg/kg) | Inhalation<br>(gases)<br>(ppm) | (vapours)<br>(mg/l) | Inhalation<br>(dusts<br>and mists)<br>(mg/l) |
|-------------------------|------------------|-------------------|--------------------------------|---------------------|--|
| N/A<br>N/A              | 500<br>53        |                   | N/A<br>N/A                     |                     | N/A<br>N/A                                   |

## Section 12. Ecological information

#### **Toxicity**

| Product/ingredient name                       | Result                            | Species                                 | Exposure |
|---|-----------------------------------|---|----------|
| ammonia                                       | Acute EC50 0.101 mg/l Fresh water | Daphnia                                 | 96 hours |
|   | Acute LC50 0.89 mg/l Fresh water  | Fish                                    | 96 hours |
| Alcohols, C16-18 and C18-unsatd., ethoxylated | Acute LC50 1.3 mg/l               | Fish                                    | 96 hours |
| C(M)IT/MIT (3:1)                              | Acute EC50 0.048 mg/l             | Algae - Pseudokirchneriella subcapitata | 72 hours |
|   | Acute EC50 0.0052 mg/l            | Algae - Skeletonema costatum            | 48 hours |
|   | Acute EC50 0.1 mg/l               | Daphnia - Daphnia magna                 | 48 hours |
|   | Acute LC50 0.22 mg/l              | Fish - Oncorhynchus mykiss              | 96 hours |
|   | Acute NOEC 0.00064 mg/l           | Algae - Skeletonema costatum            | 48 hours |
|   | Chronic NOEC 0.0012 mg/l          | Algae - Pseudokirchneriella subcapitata | 72 hours |
|   | Chronic NOEC 0.004 mg/l           | Daphnia - Daphnia magna                 | 21 days  |
|   | Chronic NOEC 0.098 mg/l           | Fish - Oncorhynchus mykiss              | 28 days  |

#### Persistence and degradability

| Product/ingredient name     | Aquatic half-life | Photolysis | Biodegradability       |
|-----------------------------|-------------------|------------|------------------------|
| ammonia<br>C(M)IT/MIT (3:1) | -                 |            | Readily<br>Not readily |

#### **Bioaccumulative potential**

| Product/ingredient name                       | LogPow | BCF  | Potential |
|---|--------|------|-----------|
| ammonia                                       | <1     | -    | low       |
| Alcohols, C16-18 and C18-unsatd., ethoxylated | 4.2    | -    | high      |
| C(M)IT/MIT (3:1)                              | -      | 3.16 | low       |

### <u>Mobility in soil</u>

Soil/water partition coefficient (Koc)

: Not available.

## Section 12. Ecological information

Other adverse effects

: No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|                            | UN             | IMDG           | ΙΑΤΑ           |
|----------------------------|----------------|----------------|----------------|
| UN number                  | Not regulated. | Not regulated. | Not regulated. |
| UN proper<br>shipping name | -              | -              | -              |
| Transport hazard class(es) | -              | -              | -              |
| Packing group              | -              | -              | -              |
| Environmental<br>hazards   | No.            | No.            | No.            |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

## Section 15. Regulatory information

#### International regulations

Chemical Weapon Convention List Schedules I, II & III Chemicals Not listed.

#### Montreal Protocol

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

Rotterdam Convention on Prior Informed Consent (PIC) Not listed.

## **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

## Section 16. Other information

| <u>History</u>                 |   |
|--------------------------------|---|
| Date of printing               | : 31.07.2023  |
| Date of issue/Date of revision | : 31.07.2023  |
| Date of previous issue         | : 31.07.2023  |
| Version                        | : 1.01  |
| Key to abbreviations           | <ul> <li>ATE = Acute Toxicity Estimate<br/>BCF = Bioconcentration Factor<br/>GHS = Globally Harmonized System of Classification and Labelling of Chemicals<br/>IATA = International Air Transport Association<br/>IBC = International Air Transport Association<br/>IBC = International Maritime Dangerous Goods<br/>LogPow = logarithm of the octanol/water partition coefficient<br/>MARPOL = International Convention for the Prevention of Pollution From Ships,<br/>1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)<br/>N/A = Not available<br/>SGG = Segregation Group<br/>UN = United Nations</li> </ul> |

#### Procedure used to derive the classification

| Classification                                  | Justification      |
|---|--------------------|
| SKIN SENSITISATION - Category 1                 | Calculation method |
| SHORT-TERM (ACUTE) AQUATIC HAZARD - Category 3  | Calculation method |
| LONG-TERM (CHRONIC) AQUATIC HAZARD - Category 3 | Calculation method |
