

# **Gardex Premium Gloss (T)**

# **Product description**

## **Type**

A premium low odour gloss paint for wood and metal. This high quality alkyd enamel paint has outstanding durability with excellent colour retention. Available in gloss and semi-gloss finish.

#### **Features and benefits**

Low Odour - Paint odour is low during and after application making the property ready for occupancy in shorter period.

Excellent Colour Last - Durable colours and gloss finish that keeps the property looking new over time for a longer repainting period.

Optimized Drying Time - Drying time is optimized to emphasize on proper drying between each coat to ensure smooth and tough finish.

Anti Fungal - Prevents unsightly growth of surface fungus to maintain beautiful and healthy wood.

100% Free from Lead & Mercury - Comply to Jotun's highest standards in health, safety and environment.

#### **Recommended use**

Applicable for interior and exterior sufaces, suitable for both new or painted substrate.

#### **Substrate**

On wood and metal surfaces.

# **Product data**

**Packaging size** Packing may vary from country to country according to local requirements.

**Colours** As per colour card and available in Jotun Multicolor tinting system (Interior range).

**Solids by volume** 48  $\pm$  2 volume%

**VOC** 400 g/I ASTM D3960

# **Application data**

#### **Remarks**

Handle with care. Stir well before use.

#### Application equipment / methods

By brush, roller, airless spray or conventional spray.

### Guiding data for airless spray

Nozzle tip 0.013-0.021" Spray angle degrees 65-80°

Pressure at nozzle 140 - 190 kg/cm<sup>2</sup> (2100 psi)

Date of issue: 26.11.2019 Product code: 10860 Page: 1/3

# **Technical Data Sheet Gardex Premium Gloss (T)**

## Spreading rate per coat

**Theoretical** 16  $m^2/l$  - 12  $m^2/l$ 

Film thickness will vary and are calculated as an average.

#### Recommended film thickness per coat

Wet 62 μm - 83 μm Dry 30 μm - 40 μm

Spreading rate depends on film thickness applied, type of texture, surface porosity, imperfections, temperature, wastage during painting etc.

#### **Thinner**

Gardex Thinner

#### **Dilution**

The paint is ready to use after proper stirring. If thinning is required, Jotun Gardex Thinner may be added up to a maximum of 5%.

## **Conditions during application**

The temperature of the substrate should be minimum 10 °C and at least 3 °C above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying.

## **Drying times**

Drying times are generally related to air circulation, temperature, film thickness and number of coats, and will be affected correspondingly. The figures given in the table are typical with:

Good ventilation (Outdoor exposure or free circulation of air)

Typical film thickness

One coat on top of inert substrate

The given data must be considered as guidelines only. The actual drying time and time before recoating may be shorter or longer, depending on the ambient temperature, film thickness, ventilation, humidity, underlying paint system, requirement for early handling and mechanical strength etc.

- 1. Recommended data given is, for recoating with the same generic type of paint.
- 2. In case of multi-coat application, drying times will be influenced by the number and sequence and by the total thickness of previous coats applied.
- 3. The surface should be dry and free from any contamination prior to application of the subsequent coat.

The drying time is measured by stated values:			
Relative Humidity (RH) 50 % Substrate temperature	10 °C	23 °C	40 °C
Surface (touch) dry	6 h	4 h	2 h
Hard dry	24 h	12 h	8 h
Dry to over coat, minimum	24 h	12 h	8 h

# **Directions for use**

## **Surface preparation**

The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of form release agents/curing agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

#### **Recommended paint system**

Date of issue: 26.11.2019 Product code: 10860 Page: 2/3

This Technical Data Sheet supersedes those previously issued.

The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com.

# **Technical Data Sheet Gardex Premium Gloss (T)**

#### **Primer**

Gardex Primer (T) : 1 coat

For new exterior wood surfaces Aluminium Wood Primer: 1 coat Gardex Primer (T): 1 coat

#### **Topcoat**

Gardex Premium Gloss (T): 2 coats

# Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

# **Tests**

Volume Solids % measured according to ISO 3233:1998 (E).

# **Health and safety**

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.

Detailed information regarding health and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet.

**First-aid measures**, refer to section 4. **Handling and storage**, refer to section 7.

**Transport information**, refer to section 14.

**Regulatory information**, refer to section 15.
