

## Glass Beads Product

---

### Product description

#### Type

This product is an important part of Road Marking system.

#### Features and benefits

Enhances the reflectivity and durability of Road Markings. Applying Glass Beads Product along with Road Marking Paint is the most cost effective way to increase High way Safety especially in poor visible conditions.

#### Recommended use

In High Way marking along with Road marking Paint.

---

### Product data

<b>Packaging size</b>	1 kg, 5 kg and 25 kg		
<b>Colours</b>	Clear		
<b>Specific gravity</b>	2,5	kg/l	Theoretical

---

### Application data

#### Conditions during application

The temperature of the substrate should be minimum 10 °C and at least 3 °C above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying.

### Directions for use

#### Surface preparation

The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of foam release agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

#### Recommended paint system

##### Topcoat

Recommended paint system

#### Remarks

Contents of packaging with different batch numbers must be mixed together before use. Please refer to the Decorative Sales Department for technical advice.

#### Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.
