Technical Data Sheet Marine Polish

Directions for use

Surface preparation

Surfaces with grease, oil or other contamination, wash with recommended Jotun Yachting detergent.

Pretreatment

Shake the can before use. Apply the product with a clean, soft and moist cloth. For machine polishing, recommended rotating speed is approximately 1000-1500 rpm. For manual polishing, rub by hand with circular movements, only smaller areas at the time. Polish to the desired effect. Complete with a clean microfibre cloth or polish paper.

Finish coat

Finish with a Jotun Yachting wax.

Remarks

Do not apply the product on hot surfaces or in direct sunlight. Avoid contact with rubber and plastic details.

Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care

Shelf life at 23 °C

Marine Polish

24 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Health and safety

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.

Detailed information regarding health- and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet.

First-aid measures, refer to section 4.

Handling and storage, refer to section 7.

Transport information, refer to section 14.

Regulatory information, refer to section 15.
