

Hardtop AS MIO (AU)

Product description

This is a two component chemically curing aliphatic acrylic polyurethane coating. It is a micaceous iron oxide (MIO) pigmented product. It has good chemical resistance. To be used as topcoat in atmospheric environments.

Typical use

Protective: Recommended for offshore environments, refineries, power plants, bridges and buildings. Suitable for a wide range of industrial structures.

Approvals and certificates

APAS approved to specification 2911

Additional certificates and approvals may be available on request.

Colours

selected range of colours

Product data

Property	Test/Standard	Description
Solids by volume	ISO 3233	50 ± 2 %
Gloss level (GU 60 °)	ISO 2813	matt (0-35)
Flash point	ISO 3679 Method 1	26 °C
VOC-EU	IED (2010/75/EU) (calculated)	426 g/l

The provided data is typical for factory produced products, subject to slight variation depending on colour.

All data is valid for mixed paint.

Gloss description: According to Jotun Performance Coatings' definition.

Film thickness per coat

Typical recommended specification range

Dry film thickness	40 - 100	µm
Wet film thickness	80 - 200	µm
Theoretical spreading rate	12,5 - 5	m ² /l

Bright colours may need film thickness in the high end of the recommended specification range to achieve opacity.

Surface preparation

To secure lasting adhesion to the subsequent product all surfaces shall be clean, dry and free from any contamination.

Surface preparation summary table

Substrate	Surface preparation	
	Minimum	Recommended
Coated surfaces	Clean, dry and undamaged compatible coating (ISO 12944-5 6.1)	Clean, dry and undamaged compatible coating (ISO 12944-5 6.1)

Application

Application methods

The product can be applied by

Brush: Use airless spray or conventional spray.

Product mixing ratio (by volume)

Hardtop AS MIO (AU) Comp A 4 part(s)
Hardtop AS/HB Comp B 1 part(s)

Thinner/Cleaning solvent

Thinner: Jotun Thinner No. 10

Guiding data for airless spray

Nozzle tip (inch/1000): 13-19
Pressure at nozzle (minimum): 150 bar/2100 psi

Drying and Curing time

Substrate temperature	0 °C	5 °C	10 °C	23 °C	40 °C
Surface (touch) dry	8 h	4 h	2 h	1 h	30 min
Walk-on-dry	40 h	30 h	16 h	8 h	4 h
Dry to over coat, minimum	24 h	18 h	10 h	5 h	2.5 h
Dried/cured for service	20 d	15 d	10 d	5 d	2 d

Drying and curing times are determined under controlled temperatures and relative humidity below 85 %, and at average of the DFT range for the product.

Surface (touch) dry: The state of drying when slight pressure with a finger does not leave an imprint or reveal tackiness.

Walk-on-dry: Minimum time before the coating can tolerate normal foot traffic without permanent marks, imprints or other physical damage.

Dry to over coat, minimum: The shortest time allowed before the next coat can be applied.

Dried/cured for service: Minimum time before the coating can be permanently exposed to the intended environment/medium.

Induction time and Pot life

Paint temperature **23 °C**

Pot life 4 h

Heat resistance

	Temperature	
	Continuous	Peak
Dry, atmospheric	120 °C	140 °C

Peak temperature duration max. 1 hour.

The temperatures listed relate to retention of protective properties. Aesthetic properties may suffer at these temperatures.

Product compatibility

Depending on the actual exposure of the coating system, various primers and topcoats can be used in combination with this product. Some examples are shown below. Contact Jotun for specific system recommendation.

Previous coat: epoxy, zinc epoxy, epoxy mastic, polyurethane

Subsequent coat: polyurethane

Packaging (typical)

	Volume (litres)	Size of containers (litres)
Hardtop AS MIO (AU) Comp A	16	20
Hardtop AS/HB Comp B	4	5

The volume stated is for factory made colours. Note that local variants in pack size and filled volumes can vary due to local regulations.

Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

Shelf life at 23 °C

Hardtop AS MIO (AU) Comp A	48 month(s)
Hardtop AS/HB Comp B	48 month(s)

In some markets commercial shelf life can be dictated shorter by local legislation. The above is minimum shelf life, thereafter the paint quality is subject to re-inspection.

Caution

This product is for professional use only. The applicators and operators shall be trained, experienced and have the capability and equipment to mix/stir and apply the coatings correctly and according to Jotun's technical documentation. Applicators and operators shall use appropriate personal protection equipment when using this product. This guideline is given based on the current knowledge of the product. Any suggested deviation to suit the site conditions shall be forwarded to the responsible Jotun representative for approval before commencing the work.

Health and safety

Please observe the precautionary notices displayed on the container. Use under well ventilated conditions. Do not inhale spray mist. Avoid skin contact. Spillage on the skin should immediately be removed with suitable cleanser, soap and water. Eyes should be well flushed with water and medical attention sought immediately.

Colour variation

When applicable, products primarily meant for use as primers or antifoulings may have slight colour variations from batch to batch. Such products may fade and chalk when exposed to sunlight and weathering.
