

## QUICK Bengalack Rett på rust Spray

### Product description

#### Type

**QUICK Bengalack Rett på rust Spray** is an alkyd-based metal paint where special raw materials are added to counteract and prevent rust formation.

#### Features and benefits

**QUICK Bengalack Rett på rust Spray** is primer and topcoat in one product. The product forms a glossy, durable and hard surface that is weather resistant and has good water and chemical resistance. Particularly well suited in areas where it is difficult to reach by brush.

#### Recommended use

Used indoors and outdoors for surface treatment of iron and steel. Used on items such as bicycles, fences / sheepfolds, gate poles, tools, machinery, steel structures, and the like.

### Product data

<b>Colours</b>	Black glossy. White glossy.
<b>Gloss level</b>	Glossy: 90–100.
<b>Flash point</b>	Closed cup: -7°C (19.4°F)
<b>VOC for Ready-for-Use Mixture</b>	EU limit value for the product (cat. B/e): 840 g/l. The product contains max 840 g/l VOC.

### Application data

Propellant: Butane/propane.  
The product is classified as extremely flammable.

#### Application equipment / methods

Shake vigorously for 2 min. before use. Keep the box as vertical as possible during spraying. Spray evenly and thinly at a distance of approx. 30 cm. Keep the can in motion during application. First spray in horizontal direction. After 5 min., spray in vertical direction. Repeat with approx. 5 min. intervals until desired effect. After use, turn the box upside down and spray until only propellant gas comes out.

#### Conditions during application

Do not paint if there is a risk of condensation or rain and wait until the film is dry.

# Technical Data Sheet

## QUICK Bengalack Rett på rust Spray

### Drying times

The drying time is affected by temperature, air humidity and film thickness.

<b>Relative Humidity (RH)</b>	50 %
<b>Air temperature</b>	23 °C
<b>Substrate temperature</b>	23 °C
<b>Recoatable, minimum</b>	Ca 5 min
<b>Dry to use</b>	Min. 1 hour
<b>Fully cured</b>	3- 4 weeks

### Directions for use

The substrate must be clean, sound and dry.

Substrate:	Rusted steel (and new / previously painted iron and steel).
Surface preparation:	Remove loose rust, loose paint, grease and other contaminants. Wash with <b>BUTINOX Husvask og Kraftvask</b> (diluted with water 1:10) and rinse. The substrate must be completely dry before further treatment.
Primer:	Not necessary.
Topcoat:	2 coats <b>QUICK Bengalack Rett på rust Spray</b> . In areas with heavy loads and in salty environment, three to four coats are recommended for optimal protection.

### Storage

In storage and in transport keep the container upright. Can be stored in freezing temperatures.

### Disposal of waste

Empty containers and paint residues must be brought to a community waste disposal or the nearest recycling center.

### Health and safety

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.
