

# **Essence Cover Plus Matt(MM)**

# **Product description**

## **Type**

An interior acrylic emulsion paint that gives good washability, smooth finish and good hiding. Available in Matt finish.

#### **Features and benefits**

Easy Clean - Stubborn stains on the wall can be cleaned easily.

Good Hiding - Covers wall surface and imperfections

Smooth Finish - Better flow for smooth and even finish.

Low Odour - Paint odour is low during and after application making the property ready for occupancy in shorter period.

Low VOC - Pass international & local green coating standards.

Easy to apply - Effortless application without fuss.

Formulated Without Harmful Chemicals - Free from harmful chemicals and emissions such as APEO, formaldehyde and heavy metals.

#### **Recommended use**

For interior application, suitable for new buildings and repainting.

#### **Substrate**

On concrete, masonry, plaster, brick work and soft board surfaces.

# Product data

**Packaging size** Packing may vary from country to country according to local requirements.

**Colours** As per colour card and available in Jotun Multicolor tinting system (Interior range).

**Solids by volume** 37  $\pm$  2 volume%

# **Application data**

#### **Remarks**

Handle with care. Stir well before use.

# **Application equipment / methods**

By brush, roller, airless spray or conventional spray.

# **Guiding data for airless spray**

Nozzle tip 0.021-0.027" Spray angle degrees 65-80°

Pressure at nozzle 140 - 190 kg/cm<sup>2</sup> (2100 psi)

Date of issue: 30.04.2024 Product code: 49362 Page: 1/3

# Technical Data Sheet Essence Cover Plus Matt(MM)

#### Spreading rate per coat

**Theoretical** 12.3 m $^2$ /l - 9.3 m $^2$ /l

Spreading rate depends on film thickness applied, type of texture, surface porosity, imperfections, temperature, wastage during painting etc.

# Recommended film thickness per coat

Film thickness will vary and is calculated as average.

#### **Thinner**

Water

#### **Dilution**

The paint is ready to use after proper stirring. If thinning is required, water may be added up to a maximum of 5%.

## **Conditions during application**

Apply at a temperature between  $10^{\circ}\text{C}$  -  $35^{\circ}\text{C}$ . The temperature of the substrate should be minimum  $10^{\circ}\text{C}$  and at least  $3^{\circ}\text{C}$  above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying.

## **Drying times**

Drying times are generally related to air circulation, temperature, film thickness and number of coats, and will be affected correspondingly. The figures given in the table are typical with:

Good ventilation (Outdoor exposure or free circulation of air)

Typical film thickness

One coat on top of inert substrate

The given data must be considered as guidelines only. The actual drying time and time before recoating may be shorter or longer, depending on the ambient temperature, film thickness, ventilation, humidity, underlying paint system, requirement for early handling and mechanical strength etc.

- 1. Recommended data given is, for recoating with the same generic type of paint.
- 2. In case of multi-coat application, drying times will be influenced by the number and sequence and by the total thickness of previous coats applied.
- 3. The surface should be dry and free from any contamination prior to application of the subsequent coat.

The drying time is measured by stated values: Relative Humidity (RH) 50 % Substrate temperature			
	10 °C	23 °C	40 °C
Surface (touch) dry	2 h	1 h	0.5 h
Hard dry	8 h	6 h	4 h
Dry to over coat, minimum	4 h	2 h	1 h

# **Directions for use**

## **Surface preparation**

The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of form release agents/curing agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

#### **Recommended paint system**

Date of issue: 30.04.2024 Product code: 49362 Page: 2/3

This Technical Data Sheet supersedes those previously issued.

The Technical Data Sheet (TDS) is recommended to be read in conjunction with the Safety Data Sheet (SDS) for this product. For your nearest local Jotun office, please visit our website at www.jotun.com.

# Technical Data Sheet Essence Cover Plus Matt(MM)

#### **Primer**

Jotun Essence Easy Primer: 1 coat

#### **Topcoat**

Essence Cover Plus Matt(MM): 2 coats

#### **Storage**

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

# **Certificates**

Complies to Singapore Green Label

# **Tests**

Volume Solids % measured according to ISO 3233:1998 (E).

Wet Scrub Resistance Test measured according to SS5 Part F5: 2003 (2013)

# **Health and safety**

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued.

Detailed information regarding health and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet.

**First-aid measures**, refer to section 4.

**Handling and storage**, refer to section 7.

**Transport information**, refer to section 14.

**Regulatory information**, refer to section 15.
