

# **Fenomastic Pure Colours Enamel Matt**

# **Product description**

## Туре

This product is a superior quality enamel topcoat, designed for interior surfaces. Based on alkyd resin.

### **Features and benefits**

Specially designed to provide maximum resistance against yellowing. Provides smooth matt finish, with superior washability. Free from harmful heavy metals such as Mercury, Lead, Cadmium, Arsenic, Chromium etc. Also works as excellent undercoat to other enamel topcoats.

### **Recommended use**

Ideal for decorating and protecting interior surfaces.

### Substrate

Cement plaster, Concrete, block work, rendered surfaces, Gypsum board, Wood, Steel etc. Substrate should have sufficient strength to receive the paint. Any defects in the substrate like surface undulations, cracks, pin holes etc., should be rectified/filled before starting painting.

# **Product data**

| Packaging size   | 1 L, 4 L and 18L<br>Egypt and Libya : 1 L, 3 L and 10 L<br>Turkey : 1 L, 2.5 L, 15 L   |
|------------------|--|
| Colours          | Refer to Fenomastic colour card.   |
| Solids by volume | 51 ± 2 volume% Theoretical   |
| Specific gravity | 1.5 Theoretical Only for white colour  |
| VOC              | 382 g/l ISO 11890 EU   |
| VOC comments     | This is the theoretical value. Tested value will vary depending on test methodology, accuracy of equipment used for testing and test conditions. |

# **Application data**

### The product can be applied by

Roller : Recommended.

Spray : Use airless spray or conventional spray.

Use airless spray or conventional spray.

### Guiding data for airless spray

| Nozzle tip          | 0.018-0.021"                      |
|---------------------|-----------------------------------|
| Spray angle degrees | 65-80°                            |
| Pressure at nozzle  | 150 Kg/cm <sup>2</sup> (2100 psi) |

## **Cleaning of painting tools**

Jotun Thinner No. 2

Date of issue: 17.03.2022

Product code: 5401

Page: 1/4

This Technical Data Sheet supersedes those previously issued.

### Film thickness per coat

#### **Typical recommended range**

Theoretical spreading rate 17 - 12 m<sup>2</sup>/l

Spreading rate depends on film thickness applied, type of texture, surface porosity, imperfections, temperature, wastage during painting etc.

Maximum spread rate per coat is obtained at minimum dry film thickness and vice versa.

### Thinner

Jotun Thinner No. 2

### Dilution

Maximum 10 %

### **Conditions during application**

The temperature of the substrate should be minimum 10 °C and at least 3 °C above the dew point of the air, measured in the vicinity of the substrate. Good ventilation is usually required in confined areas to ensure proper drying. The moisture content in the substrate should not exceed 4 % (by weight). The coating should not be exposed to oil, chemicals or mechanical stress until fully cured.

### **Drying times**

Drying times are generally related to air circulation, temperature, film thickness and number of coats, and will be affected correspondingly.

1.Recommended data given is, for recoating with the same generic type of paint.

2. In case of multi-coat application, drying times will be influenced by the number and sequence and by the total thickness of previous coats applied.

3. The surface should be dry and free from any contamination prior to application of the subsequent coat.

| The drying time is measured by stated values:<br>Relative Humidity (RH) 50 % | es:   |       |       |
|--|-------|-------|-------|
| Substrate temperature  | 10 °C | 23 °C | 40 °C |
| Surface (touch) dry  | 10 h  | 5 h   | 3 h   |
| Hard dry   | 30 h  | 15 h  | 9 h   |
| Dry to over coat, minimum  | 30 h  | 15 h  | 9 h   |

# **Directions for use**

### **Surface preparation**

The substrate must be sound, clean, dry and free from dust, oil, grease, laitance etc. All traces of form release agents/curing agents must be removed. A light sanding with suitable abrasive material is recommended before application. Any resulting dust/loose particles must be removed.

### **Recommended paint system**

### Primer

Fenomastic Emulsion Primer or PVA Primer : 1 Coat

Date of issue: 17.03.2022

Product code: 5401

Page: 2/4

This Technical Data Sheet supersedes those previously issued.

# Technical Data Sheet Fenomastic Pure Colours Enamel Matt

### Filler

Stucco : 2 Coats

### Topcoat

Fenomastic Pure Colours Enamel Matt : 2 Coats

### Other paint systems

On wooden surfaces:

Bengalac Woodprimer : 1 Coat(s)

Stucco : 2 Coat(s)

Fenomastic Pure Colours Enamel Matt : 2 Coat(s)

### On steel surfaces:

Bengalac Red Oxide Primer : 1 Coat(s)

Fenomastic Pure Colours Enamel Matt : 2 Coat(s)

### Remarks

Other systems may be specified, depending on area of use.

Contents of packaging with different batch numbers must be mixed together before use.

Please refer to the Decorative Sales Department for technical advice.

This product is available in: United Arab Emirates, Bahrain, Kuwait, Qatar, Saudi, Oman, Egypt and Libya

### Storage

The product must be stored in accordance with national regulations. Keep the containers in a dry, cool, well ventilated space and away from sources of heat and ignition. Containers must be kept tightly closed. Handle with care.

# Health and safety

Please observe the environmental and precautionary notices displayed on the container.

A Material Safety Data Sheet for the product has been issued. Detailed information regarding health and safety risks and precautions for the use of this product is specified in the product's Safety Data Sheet. **First-aid measures**, refer to section 4. **Handling and storage**, refer to section 7. **Transport information**, refer to section 14. **Regulatory information**, refer to section 15.
